

FIRST NATIONAL BANK

BROKEN ARROW

We recently released Quick Balance on our Mobile Banking App. Right now the Quick Balance is showing the current balance which doesn't include any pending credits/debits. With the release of our new Personal Online Banking, the Quick Balance will show the available balance which **DOES** include pending credits/debits! We apologize for the confusion with the Quick Balance feature and we are very excited to roll out the new Personal Online Banking with real time Quick Balance.

For more information about the new Personal Online Banking please visit us at fnbba.com or call us at 918-251-5371.
