

# FIRST NATIONAL BANK

## BROKEN ARROW

FNBBBA is updating the security settings for Personal and Business Online Banking. You will need to enable TLS 1.2 within your browser in order to avoid service interruption. The update is taking place so that we can maintain the highest standards for our data security and to align with the payment card industry data security standards (PCI DSS) and industry best practices. The update will not change the look or the functionality of the system.

Below are the instructions on how to update your browser to TLS 1.2:

Click on tools/internet options/advanced/scroll down to security/check TLS 1.2/click apply/click ok  
\*leave TLS 1.0 and 1.1 checked
